Beautiful countryside and a variety of culture

Central

Together, the cantons of Uri, Schwyz, Nidwalden, Obwalden, Zug and Lucerne form the heart of Switzerland. Because of its central location, the city of Lucerne can be reached in approximately one hour by car from Basel, Bern and Zurich.

Unique

Mountain railways, boats, steamboats, buses and trains will take you to your desired destination – with typical Swiss punctuality. Take the steepest cogwheel railway in the world to the top of Pilatus (2120 m), the first mountain railroad to the top of Rigi (1797 m) or the first revolving cable car in the world to the top of Titlis (3238 m). There are more than twenty boats, five of which are steamboats, to take you on a ride on Lake Lucerne – with its unusual, fjord-like shape – all year round. Lake Zug also offers numerous possibilities for boat excursions throughout the entire year.

History

Over 700 years ago, the first Confederation was founded on the shores of Lake Lucerne with the original cantons of Uri, Schwyz and Unterwalden, the latter of which comprises Nidwalden and Obwalden today. Explore the trail of William Tell in Central Switzerland.

Tradition

Customs are lived and celebrated throughout the year: the “Älpler” and the “Schwing” festivals, the “Chlausjagen”, or the march up to and down from the Alps every spring and autumn, as well as the most varied carnival traditions.

Culture

There is a vast and varied selection of musical events in Central Switzerland as well. The Lucerne Festival ranks internationally among the most important events for classical and contemporary music. Several highlights of the extensive range of events are: the Summer Festival in Lucerne, the jazz festival in Willisau or the “Musiktage” in Stans.

A particular highlight is the Culture and Convention Center Lucerne (KKL), which is among the most spectacular buildings to have been built in Switzerland in recent years.

Active

Hiking, cycling, inline skating, golf, paragliding, rock climbing, horseback riding, bungee jumping, canyoning, sailing, windsurfing and winter sports are among the multitude of sport possibilities. There are over 25 hiking trails with specific themes, such as the Swiss Path, “Jakobsweg”, the “Grenzpfad Napfbergland”, the historic “Gotthardweg” or the Sbrinz Trail to ensure a pleasurable hike.

Apart from alpine skiing and snowboarding, the major and smaller ski resorts in Central Switzerland offer excellent cross-country ski trails, winter hiking trails, snowshoeing areas and toboggan runs.

...Many visitors have fond memories of Lucerne from their childhood experiences: eyes wide with wonder at the Swiss Transport Museum, merry giggles in the labyrinth of mirrors, or red flushed cheeks on the toboggan run (the longest one in Switzerland!) belong just as much to the LifeSTYLE of the City of Lights as the world-famous Chapel Bridge!

Exciting and diverse museums, beautiful wooden bridges, venerable city fortifications and the car-free Old Town with its fountains and squares all contribute to making the City of Lights a family metropolis.

Special offers for excursions that entice you to nearby places for breathtaking experiences: among others, a trip with the steepest cog-wheel railway in the world, a ride on the first 360° rotating cable car and a visit to a unique wilderness park, where you are certain to come in contact with the animals.

In the winter there are special Ski & Fun Parks set up especially for young – and the youngest – guests. Enjoy the sled runs or the Christkindl Christmas Market and its fairyland, located high up on Pilatus Kulm.

Parents are well served, too! Selected hotels and country inns offer special package deals for family rooms – in addition to other “goodies” for their family guests!

Best Friends Shopping

Have you ever found the information on a guided city tour to be too detailed? Or found yourself wishing that you had seen more of the city after a shopping spree? Vacation Apartments

As an alternative to vacationing in a hotel, there are numerous vacation apartments in the region of Central Switzerland. The spectrum of possibilities ranges from luxurious apartments at the lakeside to simple mountain huts in the Alps. The apartments are classified by the Swiss Tourism Association according to a standard system which is analogous to the rating of hotels with stars:

- ***** Luxury apartment
- **** First-class apartment
- *** Middle-class apartment
- ** Standard apartment
- * Simple apartment

Many apartments can be viewed and booked via the Internet.

You can find detailed information regarding this classification system at: www.swisstourfed.ch

Information and bookings see back page.
